**Teagle**

www.teagle.co.uk

**TOMAHAWK**

**BEDDING MACHINES** Teagle Tomahawk bale shredders make short work of all bedding requirements. Cows stay cleaner and less straw is used when it's chopped.

**T4040 AND T5050** handle 4, and 5' diameter round bales. Discharge from either side or both sides. Lower left and upper right discharge chutes spread material evenly into stalls.

Heavy duty silage rotor handles all types of hay and straw. Machines can be run at 540 RPM or 1000 RPM when greater distance is needed.

**MODELS T5050XL AND T505XLM** are equipped with a 9' long drum capable of handling full size square bales.

Chopped straw in a poultry house.

Various screen sizes available to suit individual requirements.

**T505M Hammer Mill** rotor utilizes sets of swinging knives, fixed paddles, and screens to produce a uniform chop length. Designed for bedding in slotted floor barns, poultry houses, and for feeding chopped straw to dairy cows as filler.

**SC1980 BALE SHREDDER TRAILER KIT** for Drum Machines. Fits both the 400 and 500 series. Pivoting axle allows the drum to be lowered for loading and inclined when operating.

www.teagle.co.uk

**BEDDING MACHINES** Teagle Tomahawk bale shredders make short work of all bedding requirements. Customers regularly report big straw savings of up to 30%.

**BOX TYPE MODELS** utilize a compact well engineered design. The rotor and cross beater combination is designed to even out power peaks. Optimized for smooth running. Important when working with livestock. Two speed gearboxes provide a high speed for spreading long distances and low speed for discharging close to the machine. Models available to suit every requirement.

**T8500 CHIEF** is a "wide body" model that provides the same features and benefits of 7100/8100 models by can handle up to two 5' x 5' round bales and all full size square bales.

- Feeds Hi Moisture
- Beds Corn Stalks
- Spreads up to 80'
- Process Round or Square Bales
- Self Loading

**TOMAHAWK SERIES** machines handle full size square bales and up to two 5' round bale. High volume model 1010 handles up to two full size square bales and three 6' diameter round bales. The swivel chute rotates 280 degrees so material can be directed wherever it's needed.

"Dual Chop" models have the ability to produce long chop or short chop material for slotted floors and liquid manure systems.

**MODEL 1010** will handle up to three 6' diameter round bales or two 8' long rectangular bales in one load.

Electric over hydraulic controls for apron chain, chute rotation/up and down, and rear loading gate.

### TELEHAWK

Attached to a telehandler the Telehawk teases and spreads round or rectangular bales. The swivel chute rotates 280 degrees and chutes up 44' to either side of the Telehawk.

## FEEDING & BEDDING MACHINES

**BALE BOSS I** loader mount square bale processor mounts to your skid steer or tractor loader combining adaptability with accessibility. The unique loader-mount design allows you to raise the Boss I above gates and pens giving you greater control of where the bale ends up. The upfront design of the Boss I allows for quick and easy loading, just Scoop N' Go.

BOSS I can also be used for bunk and fence line feeding and windrowing for re-baling.

**BOSS II** handles up to two bales and is fully adjustable to fit 3' x 3', 3' x 4' and 4' x 4' square bales up to 9' long. The distribution chute allows the machine to bed livestock or feed into bunkers or windrows with one quick adjustment.

**BOSS IV** provides increased capacity by up to four 4'x4'x9' bales. Bales are easily loaded with the hydraulic self loading deck. Raise the deck to spear your stack then lower it back into position.

**BOSS I MODEL 3720** skid steer & loader mount handles bales up to 84"

**BOSS I MODEL 3820** skid steer & loader mount handles bales up to 96"

**BOSS R** holds one round bale up to 4 feet wide and up to 6 feet in diameter. Easy to use, the self-loading arm easily picks up round bales placing them onto the apron chain. Equipped with spikes, the apron chain easily grabs onto the bale turning it against the restrictor bars as the flail rotor pulls apart the bale.

## WEAVERLINE

**HEAVY DUTY BALE CHOPPERS** for consistently chopped bedding material of straw, mulch hay, or newspaper.

Most popular model KB1255 with 13HP Honda and dual swivel wheels.

Aggressive 56 knife rotor with spiral design assures an even power curve for uniform continuous cutting less horsepower. Reversible knife plates slide easily onto 1 1/4" hex shaft.

Adjustable grate to vary chop length.

Double V belt drive system for efficient power transfer. Enclosed oil bath gearbox.

## HLA SIDE DISCHARGE BUCKET

### SAWDUST MODELS

- 12" wide endless discharge belt with 3/4" cleats
- Direct coupling on all drives
- Beater to prevent bridging with separate hydraulic drive
- Left or right discharge
- Models available for most loaders or 3 point hitch mount
- Min. 12 GPM required

Models available from 60" - 96" and up to 2 2/3 cubic yard capacity

### SAND MODELS

- 12" wide endless heavy duty rubber discharge belt with mini cleats
- Direct coupling on drive
- Beater to prevent bridging and improve flow
- Left or Right discharge
- Models available for most loaders or 3 point hitch mount
- Min. 12 GPM required

Models available from 60" - 96" and up to 1 2/3 cubic yard capacity

### RUBBER FREE STALL SCRAPERS

- Heavy duty rubber for longer life.
- Deep scraper for more volume and smoother operation.
- Enclosed frame with splash guard.
- With or without back drag.
- 60", 72", 84" and 96" widths.

### Feed Alley Scraper

Moves scattered feed close to cattle with a rubber moldboard edge.

Hydraulic angle adjustment. 60", 72" and 84" widths.

## PTO GENERATORS

With Baumalight PTO generators power is as close by as your tractor.

TX generators are designed to keep the lights on and the power going, for you and your family.

The TX series generators are designed to back up small farms and estates. Simple connections and controls provide quick and easy access to power when you need it. TX series generators are suited to tractors from 10hp to 50 hp. These rugged little units provide backup or remote power from 7 Kilowatts to 31 Kilowatts. All TX generators have double surge power to meet your spike demands.

There are places on your property that are only reachable by tractor, getting power to these locations for tools and appliances can be challenging. These rugged tag-along generators allow you to take power where you need it when you need it. In field break downs can happen anywhere and at the worst time.

Paired with a portable welder TX generators make a great in-field repair team.

Your operation cannot afford to be without power for long. The QC series of generators allow you to take matters into your own hands. These portable power plants are designed to fit tractors from 20 to 200 hp. The extensive QC model line up supports power requirements from 12 Kilowatts to 100 Kilowatts.

QC generators gives you a portable power solution that is up to the 24hr 7 day a week demand and can be a cost effective alternative to installing utility power.

Your power requirements on your property can vary by time of year and location. Whether you need, emergency back up, portable in-field repair power, or power for un-serviced locations Baumalight PTO Generators put the power in your hands.
