## AERATORS

\*Kodiak is not sold by C&B in Ohio

**BOTH SPIKE AND PLUG AERATORS** are made using a 12" diameter drum which can be filled for additional weight. 3 Point hitch model frames are made 16" wide to stack blocks for extra weight.

Spikes are 2 3/4" long x 4" wide at the base. Core Tines are 15/16" diameter x 7" long and utilize a unique mounting system which allows them to move slightly during operation thus allowing easier penetration if subsurface objects are encountered and enhances the release of plugs.

3 POINT AND PULL TYPE SPIKE and plug aerators from 3' to 7' for residential use.
