VERTICAL BEATER MANURE SPREADERS

NITRO

CAPACITIES

MODEL 375RS
12 Ton / 410 heaped cu. ft.

MODEL 450
13 Ton / 453 heaped cu. ft.

MODEL 525RS
15 Ton / 555 heaped cu. ft.

MODEL 600
17 Ton / 593 heaped cu. ft.

MODEL 750
20 Ton / 791 heaped cu. ft.

MODEL 950
25 Ton / 950 heaped cu. ft.

NITRO SPREADER represents a new generation of vertical beater manure spreaders. Even Spread. Every Time.

Feature-loaded, and innovative, the Nitro spreads manure evenly and efficiently. The variable speed, hydraulically driven apron chain feeds fast-moving vertical beaters that 'bite' the load and throw it into the field with remarkable consistency, ensuring a finely spread application every time.

NITRO SPREADER EFFICIENCY

Compared to conventional spreaders, the Nitro's high capacities reduces trips to the field and improves efficiency.

Heavy-duty chain and sprocket is designed to move heavy manure day after day without chain breaks.

Quick-drop removable beaters remove in minutes, converting your spreader into a rear discharge trailer for stockpiling or windrowing.

Guillotine end gate helps control the flow of sloppy, semi-solid, or light, dry poultry manure. The beaters have been engineered to provide an even, consistent spread pattern every time.

Nitro 600 - Single Axle

OPTIONAL POULTRY LITTER BEATERS

The interchangeable quick-drop beater system allows operators to conveniently switch between the vertical or poultry beater assemblies offering flexibility to both producers and custom operators. Each poultry litter beater assembly comes standard with Gearbox drive system to maximize distribution while metering material flow.

SPREADER

GET BACK ON YOUR HORSE FASTER

Keep your stable clean and tidy with the easy-to-use **MX MANURE SPREADER** from Wallenstein. Designed for equine facilities and hobby farms, the MX Manure Spreader is the perfect size to handle manure from barn to field without the mess. You can choose between PTO drive or ground-drive spreading options to suit your tractor's capabilities.

Unlike metal and wood, Poly-Floor boards are resistant to weather and extend the life of your spreader. They will not rust and are flexible making them virtually indestructible.

Wallenstein compact manure spreaders feature a one piece welded bed frame for durability, made from tubular steel. Frames start with a strong foundation and are built up using sturdy, heavy gauge steel construction. The job is finished with a baked on powder coated paint.

Wallenstein manure spreaders have 3 levels of unloading speed affecting the apron chain. A few quick moments is all it takes to get the right coverage for your application needs.

COLOR CHOICES:

5 YEAR WARRANTY!

25, 50, 80 and 130 bushel capacities.

MX130 Manure Spreader Specifications

- 130 bushel capacity
- 10 replaceable beater paddles
- 2-speed gearbox PTO
- Pinto chain
- Box dimensions: 48" x 134" x 23"
- Overall dimensions: 78" x 214" x 42" (loading)

SEED TENDERS

*Strobel not sold by C&B in Ohio

2 Box Low Profile

4 Box Low Profile

BULK SEED TENDERS

- Available in 200, 300, 400 bushel gooseneck and 100 bushel bumper hitch units. Skid models available.
- Gooseneck trailer, 17.5-16 ply tires and 2-5/16" ball. Balanced, weight on your truck not your bumper.
- Low profile, 6'11" fill height, safer and easy to fill. 42 degree slope hopper for complete clean out.

BOX SEED TENDERS

- 3 Stage Telescoping Tube with 19' max reach
- Push button operation from auger
- 12V solenoid operated clutch
- Kohler w/electric start on 2 Box models/ 9hp on 3,4, & 6 Box models
- Lundell poly-cupped flighting (gentlest on seed)
- (2) 3500# torsion axles w/springs and equalizer/ 7000# on 3 & 4 Box, 10000# on 6 Box
- Electric brakes w/brake away safety brakes
- 1 handle, all box positive lock down system
- Tail, turn, & brake lights, 2 5/16" ball, safety chains
- 2:1 heavy duty superior gearbox

DOZER BLADES

Pitbull blades offer greater blade control, easy quick attach and the most compact mounting system available.

Blades are available in two size categories for tractors 300–600HP FWA tractors and 400–600HP articulated 4WD tractors. Built using T1 grade steel with AR400 wear points.

Blades come with a 2-year warranty.

CEMENT MIXERS

HYDRAULIC DRIVEN CEMENT MIXERS

With a 10CF and 20CF capacity, this mixer rotates in one direction for mixing and in the opposite direction for unloading. The hydraulic motor drive makes it easily controlled from the tractor seat via the external services spool valve.

Reversible drive system

The deep spirals, needed to give a good unloading action, also give a quick and thorough mix. Because the drum does not tip to unload, the discharge height is always good.

SPREADERS

BMC pendulum spreaders have been designed to distribute solid granulated fertilizers and seeds with total precision.

AIP, ASG & AIG Series Spreaders

- Hopper capacities available from 17.5 CF to 58 CF
- Durable polyester pressed hopper
- Steel frames
- Designed for tractors from 30HP and above.
- AIG and ASG models available with quick hitch and hydraulic controls

AIP Series Spreader

ASG Series Spreader

AIG Series Spreader

AMP Series Spreader

features a poly-ethylene 10.6 cubic feet hopper. Spreading width ranges from 3' to 46'

TWIN DISC SPREADERS

ACH Series Spreader ACH Series is designed for tractors 50 HP or higher and can handle large capacities, up to 5,931 lbs. with a spread width of 79'.

ADH Series Spreader ADH Series is designed for tractors 50 HP or higher and can handle large capacities, up to 2,359 lbs. with a spread width of 79'.

STANDARD FEATURES
