POST POUNDER

POST POUNDER FEATURES

Ideal for fencing, vineyard and orchard applications.

- Heavy-duty and hard hitting
- Low maintenance (no springs in Wheatheart Post Pounders)
- Swivel control panel with joystick hydraulic controls
- Adjustable hammer height to accommodate different post lengths
- Greaseless horizontal poly slides

Easy Operation

Activate the two hydraulic tilt cylinders with the conveniently located joy stick control and direct the four way tilt mast side to side and front to back, allowing perfect post alignment in uneven terrain.

Hydraulic Post Hugger

All Wheatheart Side Mast Post Pounders offer 16" of lateral movement coupled with a four way tilt mast, allowing side to side movement and perfect post positioning. The Post Hugger (right) is standard on all models and helps align posts for added convenience and safety.

Optional Post Huggers

T-Post Hugger

Square Post Hugger

Cast Iron Cones

Optional Self-Contained Hydraulic System

- The 4.5 cubic inch motor drives and efficient high volume pump
- The post pounder frame is utilized as an oil reservoir which dissipates heat effectively
- The self-contained hydraulic system eliminates any risk of oil contamination to the power unit

Universal Mount Plate

- Easy installation, taking only a few minutes to mount or detach from your skid steer
