BAUMAN DROP SPREADERS

De-Ice Your Parking Lots, Driveways & Walkways

Bauman Sidewalk Sanders will dispense your de-icing material evenly in a pattern rather than in a solid layer. The distributor drum maintains the spread width to direct the material to drop exactly where you want it. This prevents material waste as well as turf damage from salt, both of which can be a problem with the spinner type spreaders.

Spread pattern

Agitator Bar

The agitator bar rotates in the hopper to reduce salt or sand from bridging and not passing through to the drum and then to the ground for an even application.

Finger Bar

A unique polymer finger bar with a flexible memory in very cold weather to retain its shape which gives an even cross hatch pattern when the material is dropped.

Salt Drum

For coarse salt distribution.
Bagged rock salt only.

Sand Drum

Rotating drum. **For sand, bulk rock salt, ice melters, and other various sized material.**

Electric Motor

¼ HP DC electric motor and reducer that drives the 440E and 1040SI drop sanders. The epoxy paint protects units from salt brine and slushy environment for long life.

Tension Lever

Included on all hydraulic units, flow control reduces hydraulic flow from tractor to the distribution drum.

Wiring Kit

A complete braided wiring harness is standard on the 440E and 1040SI electric models.

Flow Control

Included on all hydraulic units, flow control reduces the hydraulic flow from the tractor to the distribution drum. Allowing the operator to control distribution quantity.

Variable Speed Control

Allows an operator to control distribution quantity.

Standard on the 440E and 1040SI electric models.

3 POINT LEAF BLOWER

ITEMNUMBER	DESCRIPTION	WEIGHT	PRICE
PB350	Leaf Blower - 3PH, 30HP minimum, 11,000 CFM, 80 Decibels	800	\$7,331.00

DEBRIS/LEAF BLOWER

The PB350 PTO driven blower is capable of blowing leaves and debris at 11,000 CFM and can change direction by using the diverter. It operates on 25-35HP tractors with a 3pt hitch.

Perfect for golf courses, parks or large estates.

- 30HP minimum, 3pt hitch tractor required
- 36" x 10" 8 fin aluminum fan for high output
- Adjustable air flow chute to discharge to left or right
- 11,000 CFM (cubic feet per minute)
- 80 Decibels

HAY FLUFFER TEDDER

Key Features

- Heavy Duty Five Bat Reel Design
- Sealed Bearings
- Spring Tines
- Nylon Cam Rollers
- Precision Depth Adjustment
- Easy Tine Angle Adjustment
- Fully Assembled
- Standard Jack Stand

Models Available

- PTO Drive
- Hydraulic Drive
- Hydraulic Reel Lift

Options

- Tandem Wheels
- Hydraulic Reel Lift

Precision Depth Adjustment

Easy Tine Angle Adjustment

Heavy Duty Reel

Optional Tandem Wheels

HAY FLUFFER TEDDER

The **Bauman** Hay Fluffer Tedder is designed to gently lift and release hay with minimal leaf damage. The Fluffer Tedder allows air to move through hay and gives additional windrow height for faster drying time. The result is better control over how hay dries and a uniform cure.

11" SINGLE CHAIN CONVEYOR

**BAUMAN
MANUFACTURING**
BACKED BY A TRADITION OF QUALITY

Construction Features:

- 14 ga. galvanized steel body
- 5-1/4" trough depth
- 11" body depth
- Gear reducer drive
- 667H pintle chain is standard
- 2-1/2" high rubber flights

Operating Features:

- Approximately 90' per minute chain speed
- 18" drive unit, 18" idle unit
- Lengths include 4', 5' and 7' body sections or any multiple thereof

Options:

- Adjustable stand with wheels
- Custom hoppers
- Discharge spout

 **Made in Canada**

FIREWOOD CONVEYOR

Construction Features:

- 12 ga. heavy duty 5' bottom section
- 8" wide trough flared out to 18" at top
- 8" deep trough
- Flared style trough conveyor
- Standard hopper included 32" wide
- Heavy conveyor chain (662 pintle)
- 2" high serrated chain flight
- Easy bolt together construction

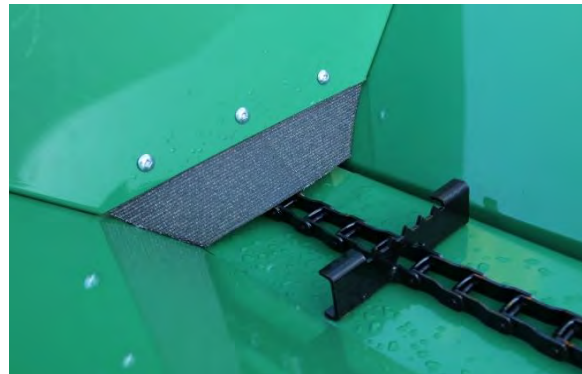

100-120 Lehigh Ave. | P.O. BOX 928
 Batavia, NY 14020
 PHONE: 800-252-1552 | FAX: 888-852-7406

Operating Features:

- Handles firewood and similar types of material
- Available 20', 25' & 30' lengths

Options:

- Optional undercarriage allows for easy transportation and height adjustment
- Hydraulic or electric drive
- Hydraulic power pack

100 Stover Drive
 Carlisle, PA 17015
 PHONE: 800-222-9869 | FAX: 717-249-9384

MAPLE LEAF TUBULAR BALE ELEVATOR

Construction Features:

- Steel square tube frame
- Gear reducer drive
- #55 H B4 chain
- Standard 20' basic unit, 6' and 10' extensions available
- Easy to assemble, bolt together construction
- Lightweight and easy to transport

Operating Features:

- Ideal for agricultural and commercial applications
- Light and easy to handle

Options:

- Optional undercarriage allows for easy transportation and height adjustment
- Various sizes of electric motors available

EBERSOL BALE ELEVATOR

Construction Features:

- Galvanized sheet metal
- V-Belt drive with #55 chain reduction
- Flared sides and hopper
- Pre-lubricated self-aligning bearings
- Heavy-duty undercarriage allows easy transportation and height adjustment

Operating Features:

- Handles bales, grain, corn cobs, silage, etc.
- Top drive pulls load rather than pushing it

Options:

- Winch conversion kit
- Corn screen

EBERSOL BELT CONVEYOR

Shown with optional undercarriage

Construction Features:

- 16 ga. galvanized body construction
- Gear reducer with sprockets and chain
- 8-1/2" body depth
- Available in 1' length increments
- Belt troughing in slider bed
- Hopper
- PVC crescent top belt is standard
- 1/2 - 3PH motor (based on length of unit ordered) *NOTE - HD drive required on units that require a 3 PH motor

Operating Features:

- Self cleaning idler pulley
- 230' per minute belt speed
- Up to 30 degree conveying incline

Options:

- 14", 18" and 24" widths available
- Galvanized sides with skirting
- Galvanized cover
- Belt scraper
- Discharge spout
- Heavy duty undercarriage with braking safety winch, tires and towing hitch
- Textured or smooth top belts
- Hydraulic power pack

Notes:

- Conveyor length for 30 degrees incline is determined by multiplying the discharge height by 2.
- Example: For a discharge height of 10', a 20' conveyor would be required for a 30 degree incline.

14" BELT CONVEYOR

Price does not include motor
Requires C-face motor

NOTE:

Estimated capacity (no elevation): 35 Tons per hour @ 60 lbs / bushel
Optional sides available. Addition of sides may change the horsepower requirements.
