HEADER TRAILERS - COMBINE HEADER TRAILERS

HEADER CARRIERS - TWO WHEEL STEER

Horst Header Wagon Features

Built on our revolutionary triple-axis base, our new universal pad provides you with flexible pad configurations. Making this single pad the only pad you'll ever need.

Note: Universal pads are standard on 4-wheel steer header wagons and are optional on 2-wheel steer models.

Tri-Axis Adjustability

- Up, Down
- Forward, Backward
- Left, Right

Ratchet Straps

These heavy duty ratchet straps are repositionable to match the best possible strapping location for your head.

New Improved Steering

Horst Header Wagons now feature an improved steering system that provides tighter steering when following the tow vehicle and prevents bent tongues.

Tapered Roller Bearings in Main Pivot Points

Roller bearings keep pivot points tight, ensuring no trailer sway and long-lasting use.

Adjustable Top Rail

Makes sure wagon fits most sizes and models of combine heads.

Quick Release Header Mount

Easily reposition the header mount by simply lowering the over-center locking handles.

*Shown without cover.

Road Signal Light Kit (optional)

Make road travel safer by adding the road signal light kit which includes brake, turning and hazard lights.

Shipping Weight	1525 lbs.	1575 lbs.	1640 lbs.

NO-SWAY DESIGN: provides a smooth trailing wagon that eliminates the zig-zag action through tapered roller bearings on all the main pivot points. Includes the king-pins and steering pivot joint. The predictable trailing movement is especially important for combine operators who don't have a clear rear-view and need to rely on a steady trailing wagon.

TIRES: made with double tube construction designed to handle uneven ground reliably. Heavy-grade tires with low wearing tread is.

FEATURES:

- Includes 2, tool free configurable standard pads
- 2 Ratchet straps to secure load
- Bridged bottom rail on CHC36
- Safety chain
- Length adjustable hitch w/ auto lock or simple hook up

OPTIONS:

- Light kit
- Universal pads
- Heavy duty bottom rail
- Honey Bee Air FLEX pad adapter
- Single spring balancer
- Double spring balancer

CONTOUR 4 WHEEL STEER HEADER WAGONS

Take the hassle out of transporting wide heads from field to field with the 4-wheel steer *Contour* header wagon. The *Contour* adds greater maneuverability with 4-wheel steering which is ideal for combine heads 30 feet and longer. The *Contour* follows the same tire tracks of the towing vehicle or combine when cornering. If your combine can make the turn, so will the Horst *Contour* Header Wagon. Take advantage of a better built header wagon and have the reassurance your combine head is traveling safely and smoothly.

HEADER CARRIERS

FOUR WHEEL STEER REAR ELECTRIC BRAKES

ITEMNUMBER	DESCRIPTION	PRICE

Setup for X Header Carriers: \$1,200

X SERIES HEADER CARRIERS

Designed for detailed no sway road travel. 4 wheel steering and braking allows the operator to feel in total control, while the carrier cradles the header for a made-to-spec fit, and reliable protection.

40' wheel base allows the gauge wheels extra room between the axles, and eliminates the big tail swing.

FEATURES:

- 4 Wheel Electric Brakes
- 24,000 Gross Vehicle Weight Rating w/8 Bolt High Speed Automotive Hubs
- 6 Ratchet Straps To Secure Load (4 on 35' units)
- Double Spring Balancer
- Safety Chain
- 7 Pin RV / Brake Light Plug
- Rear Lights With Brake And Turn Signals
- 235/75 R17.5 (16 ply) Tires
- 2 5/16" Ball Hitch

John Deere X Series Headers

Specifically designed from John Deere specs. for hinged draper heads.

- Fits up to 50' heads
- 4 Ratchet straps to secure load
- Meets all requirements from JD

WAGON GEARS - HORST

WAGON GEARS - FOUR WHEEL MODELS

How to order:

1. Select a Wagon with adequate capacity for the intended load
2. Select Reach Poles that will provide adequate wheelbase length. The Model 145 requires One (1) Reach Pole. All other models require Two (2) Reach Poles. (See guideline for proper reach lengths)

* Models 285/365/485/505/605/608 require Square Reach Poles, all others require Round Reach Poles.

3. Select the size and number of wheels required for the tires intended to be used. Wheels are priced "per each" **NOTE: Go to www.horstwelding.com for specific track widths and max wheel and tire limitations**
4. Select tires if required. Tires are priced "per each"

Models available from 8 ton to 40 ton capacity

ITEMNUMBER	DESCRIPTION	PRICE

Road Flex Suspension

Ideal for high speed tractors the Road Flex running gear uses suspension blocks to help eliminate bumps and vibrations when traveling down the road or field. Not only does Road Flex reduce stress from towing heavy loads it also provides increased stability to Horst wagons. In addition Road Flex provides independent suspension which eliminates the need for rocking bolsters.

NOTE: The rated capacities provided are for the chassis only and rims and tires should be matched accordingly when ordered.

STANDARD FEATURES

RETRACTABLE AUTOMATIC RELOCK TONGUE LATCH

(with standard variable adjustment)
Take the precision work out of hooking up by freely moving the tongue into place and watch it lock into place as soon as it's in motion.

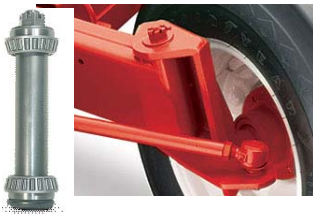

AUTOMOTIVE BALL JOINTS

Automotive style ball joints not only keep wagons behind you they also provide years of hard working service.

TAPERED ROLLER BEARINGS IN MAIN PIVOT POINTS Roller bearings keep pivot points tight, ensuring no trailer sway and long-lasting use.

ROAD FLEX Road Flex suspension uses shock absorbing blocks to reduce the amount of bounce the wagon encounters as it's pulled down the road or across the field.

The true power of 4 x 4 Horst Wagons welcomes you to a new generation of running gear. Designed for smoother travel and minimal soil compaction, QuadSteer models are changing the way you move from the field to the farm. With the addition of a dual front axle set, QuadSteer models combine two advantages into one: improved floatation and easier steering. Unlike any other running gear, QuadSteer with the second steering axle provides better weight distribution at the front of the wagon - especially while turning, when soil compaction happens most.

11 x 22.5

305 x 22.5

12 or 315 x 22.5

385 x 22.5 (15 x 22.5)

425 x 22.5 (16 x 22.5)

USED TIRE WARRANTY

We do our own mounting and use only new tubes. They will all be marked and dated. Any tire which goes flat within 90 days of purchase, we will exchange free if it is returned on the rim that it went flat on.

We do not accept repair bills sent to us.
