

July 30, 2023

Paul Hollis, formerly Executive Vice President of Redexim North America/RTP Outdoors announced today the launch of his new company PH Outdoors.

"I'm excited to take on this challenge and to develop the new company," said Hollis. "We have a great team in place, and I'm looking forward to growing the business over the coming months."

As part of this launch, they have unveiled their new line of no till drills, the G-Series.

The G-Series is a line of no till drills designed for use in a variety of applications, including food plots, regenerative farming, and habitat management.

The G-Series is the first in a line of products to be released by PH Outdoors and has been developed by Paul and his team after working extensively with

users and operators over the past 8 years. "We're confident that the G-Series will change the way people think about no till drilling, they have been designed to make the whole operation easier than ever before," said Hollis.

The G-Series drills have been designed specifically for no till applications are available in a variety of models to suit any need, and each machine comes with several features that make it the perfect choice for any job.

**Key features include:**

- A simple seed calibration system that requires no tools and can be done in minutes
- A unique disc configuration that provides superior soil penetration and seed placement
- A seed delivery system that ensures accurate and consistent seed placement
- A choice of seed settings that allow the drill to be calibrated for a wide range of seed varieties
- A robust frame and chassis that can handle the most challenging no till terrain
- A simple means of depth adjustment

The G-Series drills are available in widths ranging from 3 feet to 10 feet and can be fitted with a variety of optional extras to further enhance their performance.

For more information about the G-Series no till drills, or to find a distributor near you, please visit the PH Outdoors website at [www.ph-outdoors.com](http://www.ph-outdoors.com).
