# WHICH PRODUCT IS RIGHT FOR YOU?

## 1. SNOW PUSHERS (pg.4)

- Carry large volumes of snow a long distance with maximum efficiency
- No hydraulics and few moving parts
- Cost effective
- Ideal for homeowners and contractors
- Optional back drag clears hard to reach areas

## 2. ANGLE BLADES (pg.8)

- Creates windrows
- Ideal for longer driveways and roadways

## 4. SCATTER SHOT (pg.14)

- Spreads salt and sand consistently
- Fully galvanized hot dipped body & frame
- Self loading
- Internal agitators prevent clumping or bridging effect

## 5. SIX WAY (pg.16)

- Ideal for narrower areas like sidewalks and park and rec applications
- Wings can be moved independently to form an angle blade, scoop, or V-Blade for different applications

## 3. SNOW WINGS (pg.10)

- Adjustable wings with patented rotary actuators
- Combines functionality of both blades and pushers
- Ideal for any combination of applications
- Unparalleled efficiency and productivity for commercial contractors

## 6. ROTARY BROOM (pg.22)

- Unique lateral and forward float help keep even contact on most surfaces
- Hydraulic angling allows for direct sweeping away from grassy areas or vehicles
- 50/50 poly & steel bristle wafers aggressively clean your lot while decreasing bristle breakage

# SNOW PUSHERS

## STANDARD FEATURES

- 1 Slim Double Sidewall Eliminates Bulky Brace for Reduced Material Build-Up
- 2 High Tensile AR400 Skidbars (Floating Skidbars on Edge Flex Models)
- 3 Replaceable Reversible Steel Cutting Edge
- 4 Spring Trip Cutting Edge (SP3500, SP4500, SP5500, SP5505, SP6500)
- 2 Year Commercial Warranty (SP3500, SP4500, SP5500, SP5505, SP6500)

## OPTIONS

### Edge Flex

Allows blade to follow ground contours for better clearing performance.  
(SP3500, SP4500, SP5500, SP5505, SP6500)

### Cast Highway Skid Shoes

Optional on SP4500, SP5500, SP5505, and SP6500 models, the cast highway skid shoes offer optimum performance and prolonged cutting edge life.

### Optional Poly Bolt-On Runner

Recommended for use with the rubber cutting edge option, as it helps prevent surface damage. Optional on the SP1500, SP1800, SP2500, and SP3500 models.

### TURF Pusher Kit

Smooth round pipe replaces the cutting edge and runner making this bolt-on option ideal for clearing snow from sports fields using artificial turf.  
(SP1500, SP1800, SP2500)

### Back Drag

This option is ideal for back dragging away from doors and loading docks for an even cleaner finish. Edges are drilled for either rubber or steel optional Bolt-On cutting edges.  
(SP1500, SP1800, SP2500, SP3500, SP4500, SP5500)

### Lateral Float

Optional on select Snow Pusher models, the lateral float allows the pusher to follow the ground contours for a better clearing performance.

Rubber Cutting Edge

### Optional Cutting Edges

- Rubber Cutting Edge (Standard on SP2500, Optional on SP1500, SP1800, SP3500, SP4500, SP5500, SP5505, SP6500)
- Carbide Tipped Cutting Edge (SP3500, SP4500, SP5500, SP5505, SP6500)
- Steel Cutting Edge (SP2500)

## SP6500

- Available in Widths from 10-20'
- Mouldboard Height: 53"
- 48" Deep Fixed Endplates
- 2 Year Commercial Warranty
- Available in Edge Flex Models

**Max Operating Weight: 60,000 lbs.**

- Optional Carbide Tipped Cutting Edge
- Bucket Edge Mount or Q-Tach Mount

## SP5505

- Available in Widths from 10-18'
- Mouldboard Height: 42"
- 60" Deep Fixed Endplates
- 2 Year Commercial Warranty
- Available in Edge Flex Models

**Max Operating Weight: 40,000 lbs.**

- Optional Carbide Tipped Cutting Edge
- Bucket Edge Mount or Q-Tach Mount

*Edge Flex Model Shown*

## SP5500

- Available in Widths from 10-18'
- Mouldboard Height: 42"
- 44" Deep Fixed Endplates
- 2 Year Commercial Warranty
- Available in Edge Flex Models

**Max Operating Weight: 40,000 lbs.**

- Optional Carbide Tipped Cutting Edge
- Bucket Edge Mount or Q-Tach Mount

## SP4500

- Available in Widths from 10-14'
- Mouldboard Height: 34"
- 36" Deep Fixed Endplates
- 2 Year Commercial Warranty
- Available in Edge Flex Models

**Max Operating Weight: 25,000 lbs.**

- Optional Carbide Tipped Cutting Edge
- Bucket Edge Mount or Q-Tach Mount

## SP3500

- Available in Widths from 7-12'
- Mouldboard Height: 38"
- 36" Deep Fixed Endplates
- 2 Year Commercial Warranty
- Bolt-On Attachment Frame has 4 Angle Settings (80°, 90°, 100° & 110°)
- Available in Edge Flex Models
- Optional Carbide Tipped Cutting Edge
- Optional Rear 3PH Mount Ideal for Cleaning Away from Doors and Loading docks; Utilize Your Pusher as a Pull Unit
- Bucket Edge Mount or Q-Tach Mount

## SP2500

- Available in Widths from 72-96"
- Mouldboard Height: 30"
- 30" Deep Fixed Endplates
- Replaceable Reversible Rubber Cutting Edge
- Bolt-On Attachment Frame has 4 Angle Settings (80°, 90°, 100° & 110°)
- Optional Rear 3PH Mount Ideal for Cleaning Away from Doors and Loading docks; Utilize Your Pusher as a Pull Unit
- Available in TURF Models for Clearing Snow from Turf Snow Fields
- Bucket Edge Mount or Q-Tach Mount

## SP1800

- Available in Widths from 60-84"
- Mouldboard Height: 24"
- 21" Deep Fixed Endplates
- Bolt-On Attachment Frame has 3 Angle Settings (80°, 90° & 100°)
- Bucket Edge Mount or Q-Tach Mount

## SP1500

- Available in Widths from 54-72"
- Mouldboard Height: 20"
- 18" Deep Fixed Endplates
- Bolt-On Attachment Frame has 3 Angle Settings (80°, 90° & 100°)
- Available in TURF Models for Clearing Snow from Turf Snow Fields
- Bucket Edge Mount or Q-Tach Mount

# SPECIALTY PUSHERS

## SP3530W

Max Operating Weight: 13,000 lbs.

- Available in Widths from 6-10' (Main Mouldboard)
- Mouldboard Height: 48"
- Wing Width (each): 30"
- Lateral Float
- Reversible Cutting Edge
- Spring Trip Cutting Edge
- Adjustable Skid Shoes (N/A on Edge Flex Models)
- Single Electric Selector Valve. Allows the control of Each Wing to be Operated Independently. 12V or 24V Coils Available
- Includes In-Cab Mount Electro-Hydraulic Harness Kit
- Crossover Relief Valve Protection
- Maximum Clearing Width 5' Wider than Main Mouldboard Width
- 2 Year Commercial Warranty
- Infinite Wing Adjustment from 0° - 180°
- 1 Patented Rotary Actuator 21,000 in-lb Torque at 3000 PSI
  - Available in Edge Flex Models
- 2 Floating End Plate Edges - Follows the Ground Contour

## SP3500X

Max Operating Weight: 10,000 lbs.

- 1 Available in Widths from 6-8' (with an Additional 4' Expansion)
  - Mouldboard Height: 34"
  - 16" Deep
  - Built-In Back Drag
  - Bolt-On Attachment Frame has 4 Angle Settings (80°, 90°, 100° & 110°)
  - Inner Mouldboard Slides on Support Shaft
  - Trip Cutting Edge
  - Compression Springs for Trip - Can Be Adjusted for Tension
  - Fixed Side Skid Shoes to Assist in Keeping Blade Level so that all Cutting Edges Wear Evenly
  - Steel or Rubber Cutting Edge Options for Top and Bottom
  - Hydraulics - Flow Divider Valve Ensures Equal Expansion on Both Sides
  - 2 Year Commercial Warranty

# ANGLE BLADES

## STANDARD FEATURES

- 1 35° Angling with Crossover Relief Valve
- 2 Replaceable Reversible Steel Cutting Edge
- 3 High Tensile AR400 Skid Shoes - SB1000, SB2000, SB3000 (N/A on Edge Flex Models)
- 4 Cast Highway Skid Shoes - SB4000, SB5000, SB6000 (N/A on Edge Flex Models)
- 5 Q-Tach/Direct Fit
- 6 Spring Trip Technology
- 7 Lateral Float
- 8 Nitrate Rods on Angle Cylinders (SB4000, SB5000, SB6000)
- 2 Year Commercial Warranty (SB3000, SB4000, SB5000, SB6000)

## OPTIONS

### Edge Flex

Allows blade to follow ground contours for better clearing performance.  
(SB3000, SB4000, SB5000, SB6000)

### Floating Blade Hinge

This option adds a mechanical float to the blade. This allows the blade to better follow the surface contour. The float is designed to be simply locked out when not needed by rolling the blade forward.  
(SB3000, SB4000, SB5000, SB6000)

### Curb Runner

Protects cutting edge from potential wear from rubbing against curbs etc.

### Optional Cutting Edges

- Rubber Cutting Edge (All Models)
- Boron Cutting Edge (SB1000, SB2000)
- Carbide Cutting Edge (SB3000, SB4000, SB5000, SB6000)

*Rubber Cutting Edge*

### Spill Guard

This option prevents snow from rolling over the mouldboard letting you push more snow and minimizing additional passes to clean up.  
(SB3000, SB4000, SB5000, SB6000)

## SB6000

- Available in Widths from 10-20'
- Mouldboard Height: 53"
- 35° Dual Cylinder Hydraulic Angling (Either Direction)
- Crossover Relief Valve Protection
- Spring Trip Cutting Edge
- Floating Blade Hinge (Std.)
- 2 Year Commercial Warranty
- Available in Edge Flex Models

## SB5000

- Available in Widths from 9-18'
- Mouldboard Height: 42"
- 35° Dual Cylinder Hydraulic Angling (Either Direction)
- Crossover Relief Valve Protection
- Spring Trip Cutting Edge
- 2 Year Commercial Warranty
- Available in Edge Flex Models

## SB4000

- Available in Widths from 9-14'
- Mouldboard Height: 34"
- 35° Dual Cylinder Hydraulic Angling (Either Direction)
- Crossover Relief Valve Protection
- Spring Trip Cutting Edge
- 2 Year Commercial Warranty
- Available in Edge Flex Models

## SB3000

- Available in Widths from 6-10'
- Mouldboard Height: 30"
- 35° Dual Cylinder Hydraulic Angling (Either Direction)
- Crossover Relief Valve Protection
- Spring Trip Cutting Edge
- 2 Year Commercial Warranty
- Available in Edge Flex Models

## SB2000

- Available in Widths from 60-96"
- Mouldboard Height: 24"
- 35° Single Cylinder Hydraulic Angling (Either Direction)
- Crossover Relief Valve Protection
- Spring Trip Mouldboard
- HLA2DM Mounting Option - See SB2000DM

## SB1000

- Available in Widths from 48-96"
- Mouldboard Height: 20"
- 35° Manual Angling (Either Direction)
- Optional 35° Single Cylinder Hydraulic Angling (Either Direction)
- Spring Trip Mouldboard
- HLA2DM Mounting Option - See SB2000DM

# SNOWWINGS

## STANDARD FEATURES

- 1 Patented Rotary Acutators
- 2 180° Rotation
- 3 Floating End Plate Edges
- 4 Crossover Relief Valve Protection
- 5 Patented Tire Protection System
- 6 Replaceable Reversible Steel Cutting Edge
- 7 Spring Trip Cutting Edge on Main Mouldboard
- 8 High Tensile AR400 Skid Shoes - SB3230W (N/A on Edge Flex Models)
- 9 Cast Highway Skid Shoes - SB4203W, SB4205W, SB5203W, SB5205W, SB6205W (N/A on Edge Flex Models)
- 10 Lateral Float
- 11 Nitrate Rods on Angle Cylinders (SB4203W, SB4205W, SB5203W, SB5205W, SB6205W)
- 12 Double Selector Valve
- 35° Angle on Main Mouldboard
- 2 Year Commercial Warranty

## OPTIONS

### Edge Flex

Allows blade to follow ground contours for better clearing performance.

Available with Hardox or Carbide cutting edges.

### Spill Guard

This option prevents snow from rolling over the mouldboard letting you push more snow and minimizing additional passes to clean up.

### Curb Runner

Optional on SnowWings, the Curb Runner runs along the front face of the curb, preventing the edge of the blade or wing from catching on any edges.

Rubber Cutting Edge

### Optional Cutting Edges

- Rubber Cutting Edge
- Carbide Cutting Edge

### Foot Switch

The Foot Switch is a direct replacement for the 3-way toggle switch traditionally used to control the diverter valve on SnowWing plows.

### Floating Blade Hinge

This option adds a mechanical float to the blade. This allows the blade to better follow the surface contour. The float is designed to be simply locked out when not needed by rolling the blade forward.

## SB6205W

- Available in Widths from 10-20'
- Wing Width (Each): 60"
- Mouldboard Height: 53"
- Rotary Actuator 54,200 in-lb Torque at 3000 PSI

**Max Operating Weight: 60,000 lbs.**

- Great for Large Sites Where Greater Clearing Width is Required While Being Able to Narrow Down for Smaller Areas
- Floating Hinge (Std.)
- 2 Year Commercial Warranty
- Available in Edge Flex Models

## SB5205W

- Available in Widths from 9-16'
- Wing Width (Each): 60"
- Mouldboard Height: 42"
- Rotary Actuator 54,200 in-lb Torque at 3000 PSI

**Max Operating Weight: 40,000 lbs.**

- Great for Large Sites Where Greater Clearing Width is Required While Being Able to Narrow Down for Smaller Areas
- Comes with Removable Top Sections on Wings to Allow for Clearance under 5th Wheel Pins on Trailers
- 2 Year Commercial Warranty
- Available in Edge Flex Models

## SB5203W

- Available in Widths from 9-16'
- Wing Width (Each): 36"
- Mouldboard Height: 42"
- Rotary Actuator 38,720 in-lb Torque at 3000 PSI

**Max Operating Weight: 40,000 lbs.**

- 2 Year Commercial Warranty
- Available in Edge Flex Models

## SB4205W

- Available in Widths from 8-14'
- Wing Width (Each): 60"
- Mouldboard Height: 34"
- Rotary Actuator 54,200 in-lb Torque at 3000 PSI

**Max Operating Weight: 25,000 lbs.**

- Great for Large Sites Where Greater Clearing Width is Required While Being Able to Narrow Down for Smaller Areas
- Comes with Removable Top Sections on Wings to Allow for Clearance under 5th Wheel Pins on Trailers
- 2 Year Commercial Warranty
- Available in Edge Flex Models

## SB4203W

- Available in Widths from 8-14'
- Wing Width (Each): 36"
- Mouldboard Height: 34"
- Rotary Actuator 38,720 in-lb Torque at 3000 PSI

**Max Operating Weight: 25,000 lbs.**

- 2 Year Commercial Warranty
- Available in Edge Flex Models

## SB3230W

- Available in Widths from 6-10'
- Wing Width (Each): 30"
- Mouldboard Height: 30"
- Rotary Actuator 21,000 in-lb Torque at 3000 PSI

**Max Operating Weight: 13,000 lbs.**

- 2 Year Commercial Warranty
- Available in Edge Flex Models

# SNOW WINGS

The Wingblade design allows you to handily change from a traditional box blade to a straight blade, with the added bonus of extra clearing width. But it doesn't stop there: the endplates are hydraulically-controlled and equipped with industry-proven rotary actuators, giving you rugged and limitless control within the massive 180 degree rotation. This means you can use your blade on an angle with one end open and the other parallel to

the direction you are driving. This allows you to get closer to buildings and parking stones with less chance of damage and better clearing results. With the endplates in their full open position, the blade can be used as a reverse box blade allowing you to back drag snow for full clearing even in the tightest of spaces.

### Box Blade

Traditional box blade.

### Straight Blade

Up to 10' of extra clearing width on select models when fully extended.

### Minimum Road Transfer Width

Approx. 9" narrower than main mouldboard width.

### Reverse Box Blade

In full reverse box.

## CONTOUR WING DESIGN

### Designed for Truck Lots

The five foot wing models in the SnowWing lineup reach even further, requiring fewer passes to finish each job.

The 4205W and 5205W models come standard with removeable upper wing tips. When removed, it forms a contour wing, designed to go under the fifth wheel pin of trucks, clearing those hard to reach places for an even cleaner finish.

Volvo L70G with  
the HLA 5205W Series SnowWing

# TIRE PROTECTION SYSTEM

Patented

Our Tire Protection System means that you get the most out of your Snow Wing while keeping the air in your tires. The system automatically protects from unintended damaging collisions between your front tires and end plates. The end plates are automatically rotated away from the tires so the operator can focus on clearing snow and worry less about damaging equipment.

# SCATTER SHOT

## STANDARD FEATURES

- 1 Manual Flow Rate Adjustment Slider
  - 2 Floating Agitator
  - 3 Efficient six vane stainless steel spinner
  - 4 Spinner Speed Control
- Fully galvanized hot dipped body & frame

## OPTIONS

### Hydraulic Shut-Off Gate

Using the optional hydraulic shut off gate, stop material flow to the spinner when spinner rotation stops.

### 36" Sidewalk Drop Shield (HS100 Series)

Reducing the amount of sand or salt landing on undesired locations, the optional drop shield limits the Scattershot spread to the width of a sidewalk.

### Hopper Cover

The hopper cover keeps rain and snow out of the hopper and ensures minimal loss of material during transport.

# HS200

- Efficient Six Vane Stainless Steel Twin Spinners
- Manual Flow Rate Adjustment Sliders
- Floating Agitators
- Hoses and Couplers Included with Hydraulic Drive Models
- 6'-60" Spread Width
- Fully Galvanized Hot Dipped Body & Frame

HS200 Loader

HS200H3PHC2

Model	Description	Self Loading	Capacity (cubic yards heaped)	Width (in.)	Height (in.)	Depth (in.)	Weight (lb.)	Hydraulic (2000-3000 PSI)
<b>HS200 Loader Mounted</b>	Hydraulic Drive	Yes	1 1/2 cu yd	86"	60"	42"	1,540	5-20 GPM
<b>HS200H3PHC2 (requires 2 sets of remotes)</b>	Hydraulic Drive, CAT2 3PH, Hydraulic Tilt	Yes	1 1/2 cu yd	86"	60"	42"	1,685	5-20 GPM
<b>HS2003PHC2</b>	Hydraulic Drive, CAT2 3PH	No	1 1/2 cu yd	86"	60"	42"	1,425	5-20 GPM
<b>HS200PT03PHC2</b>	PTO Drive, CAT2 3PH	No	1 1/2 cu yd	86"	60"	42"	1,425	N/A

# HS100

- Efficient Six Vane Stainless Steel Spinner
- Manual Flow Rate Adjustment Slider
- Floating Agitator
- Hoses and Couplers included with Hydraulic Drive Models
- 3'-40" Spread Width
- Fully Galvanized Hot Dipped Body & Frame

HS100 Skidsteer/Loader (shown with 13" quick attach spacer)

HS1003PHC1

HS100PT03PHC1

Model	Description	Self Loading	Capacity (cubic yards heaped)	Width (in.)	Height (in.)	Depth (in.)	Weight (lb.)	Hydraulic (2000-3000 PSI)
<b>HS100 Skidsteer/Loader Mounted</b>	Hydraulic Drive	Yes	1/2 cu yd	48"	44"	36"	445	5-20 GPM
<b>HS1003PHC1</b>	Hydraulic Drive, CAT1, 3PH	No	1/2 cu yd	48"	44"	36"	410	5-20 GPM
<b>HS100PT03PHC1</b>	PTO Drive, CAT1 3PH	No	1/2 cu yd	48"	44"	36"	420	N/A
<b>HS100H3PHC1 (requires 2 sets of remotes)</b>	Hydraulic Drive, CAT1 3PH, Hydraulic Tilt	Yes	1/2 cu yd	48"	44"	36"	505	5-20 GPM

Skidsteer adapters include a 13" spacer for easier access to the drivers cab.

# SIX-WAY BLADES

Scoop

V-Blade

Angle Blade (right & left)

## STANDARD FEATURES

- 1 Replaceable, Steel Cutting Edge
- 2 Spring Trip Cutting Edge
- 3 35° Angle with Cross Over Relief Valve Protection
- 4 Lateral Float
- 5 Single Electric Selector Valve
- 6 5/8" AR600 on 3600V, 3/4" Hardox 450 on 4600V
- 7 High Tensile AR400 Skid Shoes
- 2 Year Commercial Warranty

## OPTIONS

### Optional Cutting Edges

- Carbide Cutting Edge

### Floating Blade Hinge

This option adds a mechanical float to the blade. This allows the blade to better follow the surface contour. The float is designed to be simply locked out when not needed by rolling the blade forward.  
(SB4600V)

### Curb Runner (3600V)

Protects cutting edge from potential wear from rubbing against curbs etc.

## SB4600V

Max Operating Weight: 25,000 lbs.

- Ideal for Small Roadways & Driveways
- Reversible 3/4" Hardox 450 Cutting Edge
- 35° Angle with Crossover Relief Valve Protection
- 34" High Mouldboard with Lateral Float
- Spring Trip Cutting Edge
- Single Electric Selector Valve with Electro-Hydraulic Harness Kit. 12V or 24V Coils Available
- 2 Year Commercial Warranty

## SB3600V

Max Operating Weight: 10,000 lbs.

- Ideal Sidewalk Blade for Compact Tractors and Skidsteers
- 35° Angle with Crossover Relief Valve Protection
- 30" High Mouldboard with Lateral Float
- Spring Trip Cutting Edge
- Single Electric Selector Valve with Electro-Hydraulic Harness Kit. 12V or 24V Coils Available
- 5/8" AR600 Cutting Edge
- 2 Year Commercial Warranty

## V-BLADES

### V-BLADE

Max Operating Weight: 10,000 lbs.

- 1 Front Shoe
  - 2 Sliding Hinge
  - 3 Replaceable Steel Cutting Edge
  - 4 Fixed V Formation
- Q-Tach or Direct Fit to Accept Most Makes of Loaders
  - 48" to 60" Widths (6" Increments)
  - Mouldboard Height: 24"

### OPTIONS

#### 6" Side Flares

Each V-Blade model is available with or without 6" side flares.

# QUICK ATTACH

## SNOW BLADE MOUNTS

*3QDM Quick Attach Mount Bracket  
with Under Mount Detached*

## STANDARD FEATURES

### Power and Control

- Heavy Duty Parallel Linkage for Optimum Lifting Height.
- AO600 Euro Quick Fit Plate for Attachments is Standard on SB3QDM and SB4QDM Series.
- JRB416 Industrial Mount Quick Fit Plate for Attachments is Standard on SB5QDM Series.
- Package Includes all Mounting Hardware and Hose Kits.
- Adapter Kits Available for Most Tractor Makes, Call Dealer for Details.
- Soft Ride Accumulator Standard.

### Parallel Vertical Lift

- Blade Remains Parallel to Ground Even at Full Angle and Raised.
- Extra Height for Piling Snow.

### Quick Release System

- Quick Release System Allows for Removal of the Complete Mount and Blade in Minutes.

The HLA Quick Attach Snow Blade Mount is securely connected to both the front and rear of your tractor. Relying on the rear of the mount, the force is pushed through the drawbar from the front of the mount providing incredible pushing strength. With parallel linkage, you can rest assured that the blade will always remain parallel to the ground whether it's raised for stacking snow or at full angle.

The quick release design relies on front and rear adapters fitted to the tractor's chassis. With the hydraulics connected, down

pressure on the blade allows you to raise the quick attach aligning it with the front bracket. Once engaged reversing the pressure raises the rear of the quick attach locking it into the rear bracket.

Available for most makes, the undercarriage mount includes all hardware, hose kits and electro - hydraulic wire kit allowing for easy installation.

## SB5QDM

- 1,500 lbs. Approx Weight Less Mount Kit
- 375 lbs. Approx Weight for Mount Kit

## SB4QDM

- 1,210 lbs. Approx Weight Less Mount Kit
- 135 lbs. Approx Weight for Mount Kit

## SB3QDM

- 1,030 lbs. Approx Weight Less Mount Kit
- 130 lbs. Approx Weight for Mount Kit

## SB2QDM

- 335 lbs. Approx Weight Less Mount Kit
- 120 lbs. Approx Weight for Mount Kit

# SB2000DM

## QUICK ATTACH SNOW BLADE MOUNT FOR COMPACT TRACTORS

The SB2000DM Snow Blade Mount is designed to work exclusively with the HLA2DM mounting option for the SB1000 & 2000 series snow blades and other select HLA products.

The undermount is securely connected to both the front and rear of your tractor chassis. The force is distributed through the mount from the front providing incredible pushing strength.

The single pin QTach design allows for uncomplicated mounting and dismounting of the snow blade.

Available for most makes, the SB2000DM mount with HLA2DM mounting option includes all hardware and hose kits allowing for easy installation.

## SB2000DM FEATURES

- QTach from Blade to Snow Blade Mount is Standard
- Mounts Available for Most Makes, Call Dealer for Details
- 400 lbs. Approx Weight (less HLA2DM)

## HLA2DM FEATURES

- Angle and Lift Hydraulics
- Cross Over Relief Valve – Protects Blade and Tractor
- Radial Hydraulic Lift
- Lateral Float: Allows Blade to Follow Ground Contours
- Mounting Hardware and Hose Kits Included

# SNOW BUCKETS

## SNOW BUCKET

Max Operating Weight: 20,000 lbs.  
Horsepower: 50 - 125

- Available Widths 60" - 120"
- 3/16" Material, 1/4" End Plates
- 3/4 X 4 Beveled Cutting Edge
- Reinforced Top Lip
- 39" Deep, 31" High
- Heavy Duty Grating for Better Visibility
- Reinforced Round Back and End Plates for Strength, Easy Filling & Clean Out
- Flat Top Acts as Level Indicator
- Tapered End Plates are Self-Cleaning and Reduces Material Build-Up
- Drilled for Optional Bolt-On Bucket Edges

## OPTIONS

- Bolt-On Reversible Cutting Edge
- Bolt-On Serrated Cutting Edge

# SNOW BASKETS

## SNOW BASKET

Max Operating Weight: 20,000 lbs.  
Horsepower: 50 - 125

- Available Widths 60" - 120"
- Profile 39" Deep and 31" High
- Heavy Duty Grating for Better Visibility
- Tapered Endplates
- Tall Rounded Endplates for Increased Capacity
- Excellent Operator Visibility
- Drilled for Optional Bolt-On Bucket Edges

## OPTIONS

- Bolt-On Reversible Cutting Edge
- Bolt-On Serrated Cutting Edge

# HYDRAULIC ROTARY BROOM

The hydraulic rotary broom from HLA Attachments features a unique forward and lateral float. As the gauge wheels glide over the ground the broom is able to adjust to the contours as they rise and fall. During transport the spring assist on the forward float and the bottom stop on the lateral float provide a firm rest to ensure safe travel.

The hydraulic rotary broom comes ready with everything you need including hydraulic hoses, flat-faced couplers, and an electric selector valve, and wire kit. Hooked up and ready to go, the broom's direct motor drive requires 12-20 GPM of hydraulic flow to turn the 26" diameter poly/steel wafers.

## STANDARD FEATURES

- 1 Forward Float
- 2 Lateral Float
- 3 Gauge Wheels
- 4 Hydraulic Angling
- 5 50/50 Poly & Steel Bristle Wafers

## OPTIONS

### Reversible Action

The optional reversible action allows operators to sweep materials away from tough to reach places, such as buildings and obstacles, for a cleaner finish.

### All Poly Bristle Wafers

Gentler on the sweeping surface, the optional poly bristles are available for both the Rotary Broom and the Rotary Pick Up Broom.

## BR60

- 15 Poly Wafers
- 16 Steel Wafers
- 1,040 lbs. Approx Weight
- Broom Width: 60"

Max Operating Weight: 13,000 lbs.

## BR72

- 18 Poly Wafers
- 19 Steel Wafers
- 1,075 lbs. Approx Weight
- Broom Width: 72"

Max Operating Weight: 13,000 lbs.

## BR84

- 21 Poly Wafers
- 22 Steel Wafers
- 1,110 lbs. Approx Weight
- Broom Width: 84"

Max Operating Weight: 13,000 lbs.

## BR96

- 24 Poly Wafers
- 25 Steel Wafers
- 1,145 lbs. Approx Weight
- Broom Width: 96"

Max Operating Weight: 13,000 lbs.

# INDUSTRY LEADING

## LATERAL FLOAT

The lateral float is standard on all Angle and Snow Wing Blade models, and is an option on select Snow Pusher models. The lateral float allows the blade to tilt from side to side allowing the cutting edge to better follow the contours of the working area.

*3D Render Shown*

## FLOATING HINGE

The floating blade hinge is an option on all 3000, 4000, 5000, and 6000 series Angle and Snow Wing Blades. When set up properly, this option gives you 8" of vertical travel at the cutting edge before the loader carrier has to move, allowing you to plow over a speed bump in a parking lot without moving the loader boom, while keeping the blade level with the ground.

Relying on the weight of the blade itself, no additional down pressure is needed to clear snow effectively. The pivot pin located at the bottom of the mount in tandem with the float travel slot at the top of the mount allows the blade to move up and down independent of the loader.

## EDGE FLEX

The second generation of Edge Flex technology from HLA Snow builds on the first with the added benefits of reduced friction, custom machined parts, and a more enclosed system that prevents debris from entering into the cutting edge system.

The redesigned Edge Flex system has the travel slot on the cutting edge carrier rather than the cutting edge itself, allowing the edge to move up and down as a unit with the sealed rubber suspension retainer plate. This directs ice, snow, or aggregate debris up the mouldboard rather than enter into the cutting edge friction area, keeping it clean for smooth and effortless clearing of your lot or drive.

Plowing with an EdgeFlex is easy; just lay the blade down and run. While you worry about blade placement and controlling the direction of the flowing snow, HLA's EdgeFlex technology works its way across the surface, adapting to the contours for cleaner results.

# Mighty Minis

Mighty Minis is HLA's answer to the increased demand for versatility in smaller power units. An extension of HLA's durable line of attachments, Mighty Minis uses the same engineering principals to ensure you get the efficiency and results your customers expect regardless of the power unit size.

Mighty Minis have all the capability of the larger models in a smaller package.
